

# QBCC Builder Licence

Turn Your Experience into an Approved QBCC Builder Licence.

Without the right licence? You're locked out of the projects you should be leading.

There is a QBCC Builder Licence class for every level. The real question is whether your application is built to pass.

# Why it matters?

Your builder licence sets your ceiling.

With the right licence you can:

## Bid Bigger

Match licence scope to project size and complexity

## Diversify

Operate in both residential and commercial sectors

## Scale faster

Upgrade licence classes as you grow

## Lead teams

Supervise building work and contract legally at the right level

# Why people get stuck?

Busy professionals lose time and QBCC assess proof, not potential.

Applying by yourself can take months or years. Time kills momentum, promotions, tenders, and opportunities.

## Most common challenges causing delay:

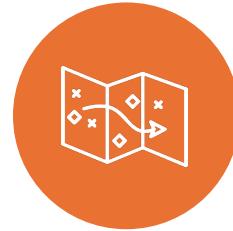

Delayed Referee or  
weak statements

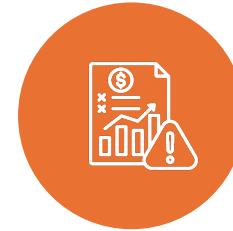

Evidence not matching the  
licence scope

Poor Application, too early,  
too light and inconsistent

Real Experience that  
is poorly mapped

Financial category  
requirements

# Who is this for?

Built for construction professionals who cannot afford licencing delays

This service is for you if...

You are project manager, construction manager, Contact administrator, Site Manager or Senior Supervisor.

You are running work already but not yet recognised on paper.

You need a builder licence to start your construction business, submit tender or become a nominee for other business.

You are time poor and sick of chasing document after hours.

# How QBCC Express works?

We remove guesswork and manage the process end to end.  
This is not a template service. It is controlled submission.

You focus on site delivery. We handle everything from RPL,  
assessment to application.

1

**Book your Free Licence Fit Call**

2

**Licencing Strategy Session**

3

**Done for you build of evidence,  
application and lodgement**

## Our service includes:

- ✓ Licence eligibility and scope confirmation
- ✓ Correct licence class selection
- ✓ QBCC-compliant resume & experience mapping
- ✓ Project evidence checklist and document collation plan
- ✓ Referees strategy and statement support
- ✓ Application preparation & lodgment
- ✓ QBCC follow ups and progress tracking until outcome

excl GST

#### Open Licence

**\$12,255**

excl GST

Accountability, speed, and certainty,  
that's what we guarantee.

Low, Medium rise, or Open – We'll get you there faster.

# Why work with me?

I learned early in my career that licensing is not paperwork. It is a career asset. When your licence underpins your role, income, or business, this is not the place to cut corners. One rejected or delayed application can cost promotions, tenders, and months of earning capacity.

I am a QBCC Builder Mid Rise licensee with 11 years in Queensland construction, across contract administration and project management, delivering over \$100M in commercial projects. I have dealt with QBCC compliance while running live sites, managing teams and risk, not from a checklist. That experience is exactly how I know how QBCC assesses applications and where most people get caught.

Every application at QBCC Express is built the way QBCC expects to see it. Correct scope, defensible experience mapping, compliant evidence, no grey areas. This is a done for you, end to end solution for professionals who want certainty, speed, and risk reduction, not form filling. If your licence matters, it deserves to be done once and done right.
